DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 11-14 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 11-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Hanley et al. (USP 4,133,421).

Regarding claim 11, Hanley et al. disclose a dispenser for dispensing drugs contained in a package having an upper flange, said dispenser comprising:

- a case (30) for containing a plurality of the packages (35) stacked in a vertical direction (see Figures 5-6);
- a pushing mechanism (59), disposed in said case, for pushing out and dispensing from the case the lowermost package (35) in a horizontal pushing direction, said pushing mechanism including a rail (32,33) for supporting the lowermost package as it is pushed out in the horizontal pushing direction; and

- at least one guide member (41) fixedly disposed on an inner sidewall of said case for supporting and guiding the flange of the second lowermost package when the lowermost package is pushed out by said pushing mechanism, said guide member being disposed above said pushing mechanism and fixed in said inner sidewall so as to be immovable (see Figures 5-6).

Regarding claim 12, Hanley et al. disclose the drug dispenser of Claim 11, wherein the guide member (41) is provided on at least one side of the pushing direction (see Figure 5).

Regarding claim 13, Hanley et al. disclose the drug dispenser of Claim 11, wherein the guide member extends longitudinally toward a downstream side of the pushing direction (see Figure 8).

Regarding claim 14, Hanley et al. disclose the drug dispenser of Claim 11, wherein the guide member supports and guides the flange of the drug package on an upstream side of the case relative to the pushing direction.

Allowable Subject Matter

4. Claims 1-10 are allowed.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
